AI ENABLEMENT SUMMARY

- Enterprise GenAI & Operations Specialist experienced in designing, testing, and driving firm-wide adoption of AI platforms, LLM tools, and Microsoft Copilot Agents across business units
- Proven educator and communicator, having led bilingual AI enablement workshops for 750+ attendees, produced 250+ pages of training documentation, and facilitated executive presentations up to CTO level
- Agile process optimizer skilled at identifying high-value AI use cases across business functions, accelerating workflow speeds up to 95% while establishing responsible AI practices and review controls

WORK EXPERIENCE

Siemens Canada – Oakville, ON, Canada — May 2026 – Sep 2026
GenAI Enablement & Adoption Specialist

- Accelerated presentation creation times by up to 95% (reducing generation time from 1 day to 15–30 minutes) by designing a custom slide-building AI framework using GitHub Copilot, PowerPoint, modular skill repositories, and automated layout and image generation
- Drove enterprise AI literacy across 750+ total attendees by co-leading monthly bilingual (English/French) community calls and hands-on enablement workshops for Siemens Canada employees
- Streamlined workflows for dozens of stakeholders across HR, Engineering, Sales, and Health & Safety by translating cross-departmental business needs into 10+ tailored AI use cases
- Accelerated AI adoption across business units by engineering custom Microsoft Copilot Agents and enterprise GPT models, conducting iterative prompt design, and managing end-to-end technical handoffs

McMaster iBioMed – Hamilton, ON, Canada — Sep 2020 – Apr 2021, Sep 2023 – Apr 2025
Laboratory Teaching Assistant

- Promoted to Instructional Teaching Assistant, in charge of supervising 45 students and 2 support assistants on a weekly basis during labs, answering questions about Python programming and Autodesk Inventor

McMaster Technology Services – Hamilton, ON, Canada — May 2021 – Aug 2021
Junior Business Analyst Intern

- Co-created a campus-wide SharePoint learning portal (16k+ unique visitors, 85k+ views) to drive Microsoft 365 tool enablement using Design Thinking principles
- Elicited user requirements by conducting 15+ stakeholder interviews, analyzing 150+ survey responses, and presenting progress to executive leadership up to CTO

LEADERSHIP AND PROJECTS

McMaster Improv – Hamilton, ON, Canada — May 2022 – Apr 2025
Co-President

- Led teams of 15 through 25+ practices yearly to perform to audiences of 100 and managed teams of 5-8 through 15+ executive meetings, driving >800% club growth and a ticket sales increase from $0 to $1400/yr
- Mentored new executives and organized 100+ pages of documentation to ensure smooth leadership transitions

Automated Resume Management Pipeline — Sep 2025 – Oct 2025

- Saved dozens of hours and ensured consistent formatting across multiple platforms by building a 3-minute resume pipeline using Notion API, Python, Jinja2-generated LaTeX templates, Cursor, and GitHub Actions workflows

EDUCATION

McMaster University – Engineering Physics (B.Eng., GPA 3.95/4.00) — Sep 2019 – Apr 2025

SKILLS & INTERESTS

Technical Generative AI Systems & Frameworks, Prompt Engineering, Agentic Code Development, Custom Bot Engineering, AI Agent Design, Skill File Creation, ChatGPT & Custom GPTs, Claude & Claude Code, Gemini & Gemini Gems, MS Copilot & Copilot Studio, GitHub Copilot, Google Anti-Gravity, Synthesia, Whisper, Enterprise AI Strategy, AI Enablement & Training, Use Case Mapping & Prioritization

Languages English (native), French (bilingual), Spanish (intermediate), Tamil (conversational)

Interests Self-Published Author, Songwriting, A Cappella, Musical Theatre, Volunteering (500+ hrs, 8 countries)
